MR. MORSE APPOINTED

New General Eastern Agent of the Big Four Railway System.

A Hustler Who Will Represent the Company at Buffalo-The Chicago Great Western Still Holding Out.

S. T. B. Morse, assistant general passenger agent of the Louisville & Nashville read, has accepted the position of general East a agent of the Big Four, with headquarters at Buffalo. Mr. Morse was for many years general passenger agent for the Kentucky Central and is one of the best known men in the country. Those who know Mr. Morse predict that he will let no opportunity pass to increase the business of the Big Four. His methods are open and above board, and his rivals will have no cause to complain of scheming or underhand work. Mr. Morse will enter on his duties on the 1st of December.

Mr. O. W. Lamport, of Wabash, ex-superintendent of the old C., W. & M., late superintendent of the Chicago & Southeastern and recently secretary of the Fairmount Land Company, has been appointed agent of the Michigan division of the Big Four at Niles, Mich., his duties beginning on Monday. He will probably remove to

A Reversal of Conditions.

Never in the history of the railroads of this country have they been operated under conditions such as have prevailed the last year, and it will likely be many a year before like conditions will again prevail. In the early part of the year the freight earnings were fully up to the normal figure, the freight department, as usual, bringing in much the largest per cent. of the gross earnings, while the passenger earnings of the first four months of 1893 kept up their usual figures. In May the travel to the grew heavier. As the passenger business increased the freight traffic began to fall off, and the shrinkage in freight earnings continued with each week while the exposition was in progress. This decrease continued until the freight earnings on many of the roads fell below those of the passenger business, an unknown condition until this year on Western lines. The passenger department was at the front, and the passenger men for the first time had an opportunity to thrust in the faces of the freight men the fact that the passenger department was a more important factor in the earnings of the roads than the freight department, and really in some cases it engendered hard feelings on the part of the freight men. When the fair closed the tables were turned, the passenger business has declined, and the freight business has again resumed its precedence.

Personal, Local and General Notes. The New York Despatch refrigerator line will hereafter be known as the Chicago, New York & Boston Transportation Com-

Within the last twelve months the Baltimore & Ohio has added to its equipment 161 locomotives, the cost of which was near-On Dec. 1, P. G. Joyce will take the position of general agent of the Cleveland, Akron & Columbus, with headquarters at

The paymasters of the Big Four, this month, are using checks to a much larger extent in paying off employes than heretofore, as a precaution against train rob-

On Dec. 1, it is stated, the shops on the Baltimore & Ohio lines will commence working eight hours a day. For some months they have been running but two

The Soo line has appointed a representative at Pittsburg with the title of commerclal agent, and has selected F. W. Sals-bury for the position. This is a new move

on the part of the Soo line. The earnings of the Pennsylvania lines for October show a net decrease of \$225,589 for all lines east of Pittsburg and Erie. For the lines west of Pittsburg the earnings

show a decrease of \$516,623. One of the Garstang build of engines on the Big Four, yesterday afternoon, hauling seven cars, made the run from the Union Station, Indianapolis, to the Grand Cen-

tral Depot, Cincinnati, in two hours and thirty-four minutes. It is stated that the Pennsylvania Company has for some weeks had an option on the Kentucky and Indiana bridge, and will accept it. All the bridge company's property, including the New Albany electric line and terminals, will be transferred to it. R. B. F. Peirce, president of the National Electric Headlight Company, yesterday received a letter from the Baldwin locomotive works, ordering six of their electric head-

The Toledo, St. Louis & Kansas City, in the second week of November, earned \$31,-125, a decrease of \$15,878. Usually, when a road gets into the hands of a receiver its business increases, as less attention is paid to rates, but the Clover-leaf seems an exception.

lights for equipping six passenger engines

the works are building for an Eastern

The annual report of the Vandalia will show that, in the early part of the year, more money was expended in improving the physical condition of the property than in any like period in years past, but as the hard times for railways came on improvements were curtailed.

H. Moore, general utility man of the Chicago & Southeastern, says the situation is brightening somewhat. The company is running two trains each way daily, earning more money than at any time in many months, and with this back claims of the men are being adjusted.

The patrons of the Indianapolis division of the Big Four are not pleased that Trains 8 and 9, which formerly ran through to Cleveland, now go only to Muncie. By running to Galion, connection would be made with trains for Cleveland, which | \$125. Her husband was convicted there would be quite a convenience.

A short time ago the Chicago & Rock Island took off its fast train known as the "Firefly," and the protests over the taking off of this train have been pouring in on General Manager St. John in such numbers | ing that her husband had died in Gerthat he has given orders that the train be restored, commencing with Sunday next. The Pennsylvania Company has ordered

built three passenger engines of the same type as No. 120, which has been making such remarkable runs on the Louisville division with heavy trains. The new engines will be put in service on the Indianapolis division between Indianapolis and Colum-

With the decease of George Bull, who filled the position of general passenger and freight agent of the St. Paul & Duluth, the service is to be divided, and General Manager Plough has appointed W. W. Broughton general freight agent and W. A. Russell general passenger agent of the

A number of passenger conductors who have had a busy summer are to take a trip to Salt Lake City, San Francisco, Port- Henry H. Brown to Emma C. land and other points of interest on the Pacific coast, which is made under the auspices of the Order of Railway Conducters. The trip is expected to occupy about

one month's time. Charles C. Curtis, who represents the passenger department of the Vandalia at Fort Worth, Tex., passed through here yesterday with thirty-three United States prisoners, en route to Sing Sing, New York. The prisoners were in charge of a United States marshal and nine guards. Among the number were Kid Wilson and two

other noted train robbers. Among other improvements the Cincinnati, Hamilton & Payton contemplates making at Indianapolis is constructing heavy stone walls and bridging over Pogues run with heavy iron girders, as was done by the Union Railway Company and the Big Four, between Meridian and Alabama streets, which would give the C., H. & D. more room on which to erect its new

freight depot. Surprise is often expressed that bogus tickets, if out on any railroad, are soon discovered. In speaking of this matter, a general passenger agent says bank officials are not more scrutinizing of notes they receive than are the railroad officials of tickets which pass through their hands; consequently, the report of a large number of bogus tickets being successfully

used on any road is likely incorrect. The passenger conductors on the through trains east and west say that they can see that each day brings some increase in business. Such trains as No. 20 on the Vandalla and the Pennsylvania lines, and the Southwestern limited on the Big Four and Vanderbilt lines, are carrying about as many people as in November last year, and the Pacific coast travel is, say the passenger men, 20 per cent, heavier than

in November last year. Freight men connected with Western roads are inclined to complain over the | Jealousy and spite are easily read between light local traffic, but it is said that West- the lines of both Gresham's letter and arn roads do not begin to feel the depres- Blount's report.

sion in business in their local freight traf-fic to the extent that the roads of New England do, whose business is made up largely of the productions of the mills in every city, town and hamlet of the New England States, a large per cent. of these manufactories being now idle.

Present indications are that William B. Shattue, commissioner of the Cincinnati and St. Louis passenger pool, will not have as easy a time in keeping matters moving smoothly, the next few months, as heretofore since the association was organized. A rate war between Cincinnati and St. Louis and Louisville and St. Louis is imminent. New lines are coming into the field and the older lines are putting in service better equipment and making better

Three months of the time in which the urchasing committee of the Indianapolis, Decatur & Western were to complete the ourchase and turn the road over to the Cincinnati, Hamilton & Dayton have passed, but no move has been made, and it is feared that the purchasing committee will not be able to carry out the programme in the allotted time, six months. It is intimated that the Cincinnati, Hamilton & Dayton will not be distressed should the committee fail to meet the requirements of the extension of time.

George Bradbury, general manager of the Lake Erie & Western, says there is no truth in the report that the Lake Erie & Western and the Louisville, New Albany & Chicago were to be operated as one, he being the general manager. Such a thing has never been contemplated or even mentioned to his knowledge. It is well known that the Lake Erie & West-ern is one of Calvin S. Erice's favorite roads, while the Monon is the pet road of Samuel Thomas and his friends, and investigation would show that the stock of each is largely held by different parties. E. O. McCormick, passenger traffic man-

ager of the Big Four, spent yesterday in

the city on official business, and during the day called on Assistant General Passet.ger Agent Bronson, who is still so ill as to confine him to his bed. Mr. McCormick says that while passenger busines is light, comparatively speaking, he must say that it is heavier than he had looked for so soon after the rush to Chicago has ceased. While the business of the Big Four was not by any means up to his ideas, at several points on the system, Indianapolis being of the number, the receipts from sales of tickets thus far this month were a little in excess of the first twenty days of November, 1892. There is considerable excitement in freight circles over the manner the Kanawha Dispatch is reaching into new Western territory. It operates over the Chesapeake & Ohio, and at first only to Cincinworld's fair began, and with each week | nati; now it runs to St. Louis, Kansas City and many other Western points, and has extended its fast freight train, No. 99, service to St. Louis, Peoria, Chicago and other Western railway centers. It has some advantages in the way of differentials; then, it is less liable to have winter delays by bad weather, running further South. While the line has been credited with being a west-bound rate-cutter, as well as an export rate-cutter, it is claimed by Traffic Manager Walker, of the C. & O. lines, that it is now strictly adhering to the rates which it is entitled to offer under its differentials. Whether this be true or not, the line is creating some uneasiness

fast-feight lines. INSURANCE NEWS AND NOTES.

The business of organizing mutual fire insurance companies to do a general mercantile and manufacturing business threatens to be overdone at Boston, in view of the numerous applications received by the Massachusetts insurance department for preliminary blanks relating to such forma-

George W. Cramer, for thirty-one years secretary of the Mutual Fire Insurance Company, of Frederick county, Maryland, committed suicide a few days ago by shooting himself through the brain. He was sixty years old, and leaves a widow and four children. His accounts were found to be

The twenty-six regular life insurance companies doing business in New York State issued insurance for \$9,383,947,133 from their organization up to Dec. 31, 1892, and upon this amount payments were made for insurance terminated of \$1,107,379,237. The insurance terminated during the same time by death, maturity, surrender or lapse

was \$5,287,495,597. Perhaps the most important evidence secured by the British parliamentary commission appointed for the purpose of investi-gating the opium question is that tendered by the management of the Oriental Life Assurance Company, which possesses what may be described as the monopoly of the native business in India. According to the testimony of the directors of that institution, no extra premium is charged to users of the drug, and this estimate of the risk seems to be confirmed by the surprising fact that during the twenty years not a single claim has been paid for death which could have been attributed to the use of

Judge Gildersleeve, of the Superior Court, of New York, has dismissed the complaint in the action of Gustave Myers against the Alliance Assurance Company to recover \$1,-500. Myers took out a policy for \$1,500 in April, 1802, on goods in his men's furnishing goods store, No. 354 Broadway, Brooklyn. Fire was discovered in the place on May 1 following. He asserted that the value of the stock in boxes and on shelves was \$5,-997.15. The company alleged arson. It was Myers's fifth fire. He is a brother-in-law of Jacob J. Kaiser, twenty years old, who was convicted of arson in the third degree several months ago and sent to Sing Sing prison.

Early next year the Niagara Fire of New York and its consort, the Caledonian of Edinburg, will close their Western department at Chicago and transfer its business details to the home office of the Niagara in New York. Mr. Byron G. Stark will have charge of the Western business. The change is in line of a reduction of expenses of carrying on the business, a policy in which these companies follow the recent example of the Home, Sun of London and London Assurance Corporation. Since the intentions of the Niagara and Caledonian have become known the announcement is made that the Greenwich of New York will, on Jan. 1, abolish its Western depart-

Detectives brought to the Court of General Sessions, in New York city, Mrs. Minnie Lange, of No. 740 Evergreen avenue, Brooklyn, whom they arrested a few days ago in the Court of Sessions in that city on an indictment charging her with having conspired to defraud the Mutual Reserve Life Insurance Company out of \$3,000 by a false claim. She had just been acquitted in Brooklyn on the charge of defrauding the John Hancock Insurance Company out of on the same charge. The indictment in New York city alleges that Lange, on May 2 last, applied for an insurance policy for \$3,000 in the Mutual company. The wife filed a claim for the insurance Sept. 5, statmany, and presented an advertisement printed in a Berlin newspaper stating that he had died there Aug. 10. Investigation disclosed the fact that Lange was alive and in Brooklyn. When arraigned before Recorder Smyth Mrs. Lange pleaded not guilty and was sent to the Tombs to await trial.

MANIPULATION

Upward Movement in New York Stocks Receives a Setback.

General Electric and Sugar Show a Falling Tendency-More Activity in Indianapolis Markets.

At New York, yesterday, money on call was easy at 1@1% per cent., the last loan being made at 1 per cent., closing at 1 per

Prime mercantile paper, 4@6. Sterling exchange was steady, with actual business in bankers' bills at \$4.85\\@4.85\\ for demand and at \$4.83\\@4.83\\ for sixty days; posted rates, \$4.84@4.861/2; commercial bills, \$4.82@4.8214.

Silver certificates, 70@71c. Bar silver closed at 69%c per ounce; at London, 32%d.

Total sales of stocks were 206,000 shares. The upward movement in the stock market received a check yesterday, which was due mainly to the manipulation of the bear traders, assisted by the sales of those operators who desired to realize on their long stock acquired at figures below the current quotations. Aid was also lent by the reactionary tendency of two of the leading industrials-General Electric and Sugar. An active business was done in Distilling, which, after an early decline of 1/2 per cent., rose 1% on purchases induced by a report that the tax on spirits would be increased 20c a gallon, which would give the company a large profit on its accumulated stock of whisky. New England was about the only active stock which recorded any advance on the day, selling up from 29% to 30%. In the specialties Chicago & Eastern Illinois rose 2 and Tobacco 11/2 per cent. The general market was dull and weak during the day, and closed heavy. There was no sus-tained pressure to sell, but spasmodic raids were made by the shorts, and some long stock was sold to gather in the profit. When the selling became less pronounced the market recovered part of the losses incurred, but the trend was downward and the final sales were made at a decline from the closing figures of yesterday of 1/4 to 1

per cent, in the active list. In the railway and miscellaneous bond among the officials of the old standard? market a very strong tone prevailed, and higher prices were made for most of the issues dealt in. Government bonds were strong. State bonds were doing nothing. The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the range of quotations:

LOCAL GRAIN AND PRODUCE.

Business Better and Prices Steady Except in Provisions.

The cooier weather of the last day or two has certainly improved business. The chief drawback now is the low price at which cereals are selling, which makes the farmers blue and injures trade with the retail men. In prices steadiness is the leading characteristic. In fruits and vegetables, while prices have not advanced, they are firmer than last week and more goods are being sold. Poultry is weak on unfavorable reports from Eastern markets. Dry goods houses report trade better. Hardware men are experiencing quiet times, but fron dealers are having a good trade. Provisions go off in some descriptions 1 cent a pound and all others \c to \c. The local grain market was quite active yesterday. Several grades of corn advanced 1/2c and oats were firmer. Track bids ruled as follows: Wheat-No. 2. red, 5014c; No. 3 red, 53c; rejected, 40@50c; wagon wheat, 56c. Corn-No. 1 white, 35c; No. 2 white, 35c; No. 3 white, 34%c; No. 4 white, 30c; No. white mixed, 341/20; No. 3 white mixed, 34c; No. 4 white mixed, 30c; No. 2 yellow, 35c; No. 3 yellow, 341/2c; No. 4 yellow, 30c; No. 2 mixed, 34c; No. 3 mixed, 331/2c; No. 4 mixed, 30c; car corn 341/2c. Oats-No. 2 white, 31c; No. 3 white, 30c; No. 2 mixed, 28%c; No. 3 mixed, 28c; rejected, 23@25c. On Heavy Selling by Scalpers and Lower Russian Prices.

Light Trading in Corn with a Downward Tendency That Went Through All the Markets.

CHICAGO, Nov. 23 .- Heavy selling by scalpers and several operators who have been regarded as bulls sent wheat down again to-day. The closing prices were about 34c lower than yesterday. Corn was dull and easier and closed with a loss for the day of 1/2c per bushel. Provisions ruled firmer on diminished movement of hogs to-

market. Wheat opened near yesterday's closing figures. The Liverpool market was quoted steady, but prices eased off and discouraged the bulls. Later, when Northwestern receipts of 598 cars, against 641 yesterday, were reported a temporary bulge resulted and December went to 62c and May to 6856c. Offerings of Russian wheat for April and May delivery in England at 3c lower than red winter closed in New York yesterday caused a temporary spell of weakness, and a failure in New York of a casualty company with liabilities of \$1,750,000 also seemed to contribute to the weakness. When Singer, Driver, Lindblom, Brosseau and others who have been regarded as leading bulls appeared as sellers the prices rattled down, and, despite better closing cables, failed to rally, closing at the day's bottom figures. December opened at 61%c. yesterday's close, lost %c, rallied %c, lost %c, gained %c, lost %c, rallied %c and declined %c to close at 61%c bid.

Trading in corn was light and the general tendency of the market downwards. Opening 1/3c lower than yesterday, May failed to rally on receipts lighter than the estimates and small estimates for to-morrow. The slump in wheat towards the close augmented the weak feeling in the corn pit and closing prices were at bottom figures of the day. May opened at 40%c, lost %c, de-clined %c, rallied %c and lost %c to close at 39%c.

The oats market was dull and featureless. May opened at yesterday's closing figures, 30%c, lost %c and rallied %c to close %c lower than yesterday. Provisions opened firm on light receipts of hogs and light estimates for to-morrow. advancing on better quotations at the yards. Toward the end weakness in wheat had an unsettling effect, and much of the gain was lost. Compared with last night January lard was .071/20 higher and Janury ribs .050

The business in vessel room was light and rates firm at 24e for wheat and 2e for corn and oats to Buffalo. Estimated receipts for to-morrow: Wheat, 115 cars; corn, 320 cars; oats, 163 cars; hogs, 19,000. Leading futures ranged as follows: Open- High- Low- Clos-

FLOUR OUTPUT.

against 234,290 barrels the week before; 183,the linen, fold smoothly, roll up tight, and 790 barrels for the corresponding time in they will iron much easier. The hot water 1892, and 161,200 barrels in 1891. Just how penetrates more readily, and it is not neces-sary to dampen so much as when using cold water. A clean whisk broom, kept for a good deal of steam is being used to enable the mills to run up to the last moment that lake shipments can be made. All except one line have stopped receiving flour for lake shipment and the chances are that some of the mills that are to-day in the operative list will be idle before Saturday.

and buyers both at home and abroad in the | Mixed bearish frame of mind that they are, millers see little hope for the trade until there is a readjustment of values. The sales of flour last week appeared to have been about 100,000 barrels. Comparatively little was for export. Prices accepted were very low, in some cases, it is claimed, below cost. The lower price of cash wheat helped out the sellers somewhat. The direct export shipments by the mills last week were 58,500 barrels against 40,150 barrels the preceding week.

TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia,

Baltimore and Other Points. BALTIMORE, Nov. 23.-Flour slow and quiet; receipts, 19,424 brls; shipments, 114 bris. NEW YORK, Nov. 23 .- The splendid effect of the recent auction sales on the market for raw cotton supplements the general satsfaction expressed in the dry goods market proper over the result and the tendency of the market for cotton goods is quite generally in sellers' favor. The unexpectedly favorable results have encouraged a good deal of buying, and already it is understood several of the large dealers are beginning to look around in the market, and it is believed there will be some stocking up in anticipation of future wants. Mail orders are coming in quite freely for cotton goods, Print cloths remain firm at 2 15-16c for 64 squares, prints and printing fabrics are fairly active, ginghams and woolen goods steady. Foreign goods continue quiet. The jobbing trade shows a fair degree of animation, with prices steady.

Spelter barely steady; domestic, 3.62%c nominal. Sales on 'Change: One carload of December lead at 3.42½c; one carload of De-cember lead at 3.40c; 100 tons of December ST. LOUIS, Nov. 23 .- Lead quiet at 3.20c; spelter steady at 3.471/2c.

NEW ORLEANS, Nov. 23 .- Cotton firm; middling, 7%c; low middling, 7%c good or-dinary, 7c. Net receipts, 10,375 bales; gross receipts, 11,362 bales; exports to Great Britain, 11,150 bales; exports to France, 13,594 bales; sales, 6,100 bales; stock, 291,547 bales.

LIVE STOCK.

and Higher-Sheep Steady. Several Mills Now Running May Be | INDIANAPOLIS, Nov. 23.-Cattle-There

Stopped This Week. MINNEAPOLIS, Minn., Nov. 23.—The	were but few on sale, and the market was strong on all decent grades.
Northwestern Miller says: The mills did nt get along very smoothly the last half of last week. Anchor ice and low water bothered a good deal and kept the output considerable below what it would otherwise have been. The quantity ground was 229,-345 barrels, averaging 28,224 barrels daily, against 234,290 barrels the week before; 186,-790 barrels for the corresponding time in 1892, and 161,200 barrels in 1891. Just how large the optput will be this week is difficult to say. The water power is short and a good deal of steam is being used to enable the mills to run up to the last moment that lake shipments can be made. All except one line have stopped receiving flour for lake shipment and the chances are that some of the mills that are to-day in the operative list will be idle before Saturday.	Export grades

and closed quiet.

..... 5.10@5.30 Heavy roughs..... 4.00@5.00 Sheep and Lambs-The quality was gener-

ally common. The market was very dull on that class, while good grades were Good to choice sheep......\$2.60@3.00 Fair to medium sheep..... 2.25/42.50 Bucks, per head...... 2.00@3.00

Elsewhere.
